

Sustainable Experience in Tanzania, Kigoma Sanganigwa Children's House

LAKE TANGANYIKA • THE GOMBE • CHIMPANZEES • PEOPLE

You want to combine **holidays with helping** in a community ?

Make a difference by doing a **Sustainable Experience** in the heart of **Africa !**

Collaborating as a **sustainable tourist** directly with our local community is a wonderful way to explore the beautiful country of Africa and to witness an authentic cultural exchange.

The Jane Goodall Institute Italia main project supports **Sanganigwa Children's Home** in Tanzania and offers a welcoming **Guest Eco-House for Volunteers**.

The Guest House is located in **Kigoma**, a beautiful region of Tanzania situated at the **Lake Tanganyk**.

Only 22 km away is the **Gombe National Park**, where **Jane Goodall** started her first behavioral observations of **chimpanzees** and where today visitors can observe the chimpanzees in the wild.

The Volunteer's Eco-House hosts **14 beds** and with a simple bathroom. It serves a hearty breakfast and on request, meals and lunches. Moreover, the house is equipped with wireless **internet** connection.

Further services are **transfer** to and from the Kigoma airport and provides **information for excursions** all around Kigoma.

The minimum donation for overnight stay (breakfast included) is **20 US \$ per person**.

Donations will contribute to the maintenance of children homes.
